2022 rate shock	2021-12 to 2022-09	-11.7%	-12.8%	25 mo

Method and limits: monthly data. Equity series are price indices without dividends (roughly 1-2%/yr below total return).
Monthly averages understate intra-month falls. Bond and cash returns are modelled from published yields. Past results do not predict the future.
This report is an educational calculation of historical data. It is not investment advice, a recommendation, or a research report, and BacktestCard is not a SEBI-registered investment adviser or research analyst.
Data: Federal Reserve Board (H.10, H.15); U.S. Bureau of Labor Statistics; OECD Financial market indicators; World Bank Pink Sheet (CC BY 4.0).
